The New Classics

Reinventing classics from the 20th century

Feminine | Neon | Music | Art | Film |
Artistic Movements | Haute couture

In our times, the crafts stand proudly as tradition, as the paradigm shifts towards the rigours and competitiveness of technology. To create products founded on the crafts, fostering and furthering artisanship with an integrated design approach is not just a celebration of tradition. It's part of a continued effort of research and development of the traditional arts & crafts.

Munna's uncompromising approach to local craft and the curated eclecticism of its designs have been the trademarks of a brand that is fostering the path for design made in Portugal.

Munna's brand launch photos, shot in historic buildings in Porto, by Portuguese artist Inês d'Orey (above).

Munna takes part, along with Ginger & Jagger, of international design and interiors tradeshows around the world - from Milan to Paris, Miami to Stockholm, New York to Cologne.

The films and the music

For a decade, Munna has been honoring the arts, design and craftsmanship, establishing new bonds between artistic and cultural legacies. Film and music are not only inspirations, but also complementary elements of Munna's creations. The brand has

become a vessel for creation within those mediums. Munna is now much more than a design studio, but also a harbour for collaborative works under the brand's conceptual universe, encompassing film and music creation.

Set the scene

Folding screens can set the scene.

Their narrative feel is seductive, provoking imagination. Their materiality, color and forms purposefully embody Munna's quintessence: the closeness of contemporary and vintage, the architectural and the intuitive.

Empire

This must be the place

A place to live life, and to escape from it. Sleeping and dreaming. For passion, for love, for family.

Beds can be quiet and graceful, as sleep should be. Yet, beds can also be an expression of personality, complement one's charisma. And become the statement in a room.

Munna's beds are the quintessence of eclectic harmony. An idiosyncratic aesthetic that mixes and matches the historic and contemporary.

30

The old and the new. Connecting the dots with a soulful approach to design, curated by an alchemy of color, emotions and handcraft.

WHAT IS GINGER & JAGGER

A lush forest scene with moss-covered logs and ferns. The image is a close-up of a forest floor, featuring several large logs covered in vibrant green moss. The foreground and background are filled with dense, green ferns, creating a rich, textured environment. The lighting is soft and natural, highlighting the textures of the moss and the fronds of the ferns.

GINGER & JAGGER

*Ginger breathes deeply. She's just climbed a mountain.
She's never felt air this pure. The view of the forest is breathtaking.
The river seems even more commanding from above. The world
now seems so small. Ginger smiles. She's found her freedom again.
Jagger reads Ginger's letter. She doesn't send pictures of the places
she writes about. She doesn't have to. Her words are so vivid, so
entrancing, Jagger doesn't write back. He wouldn't know where to
send them to. Instead, he designs. His creations are unravelled by
her travels, by his memory of her. He hopes she smiles when she
sees them. They are dedicated to her.
These are his love letters.*

GINGER  JAGGER

Launched in Europe in 2012, Ginger & Jagger is a product design brand that prides itself on creating handcrafted high-end contemporary products inspired by Nature.

Designed and produced in Porto, land of craftsmen and age-old tradition, Ginger & Jagger's Earth to Earth collection is an evocative poetic realm, where Nature's sculptural shapes are eternalized through handcraft, with unique artisanal techniques and an outstanding blend of superb materials such as brass, copper, exotic woods and marble.

Ginger & Jagger is for the aesthetes, the rebels, the travellers and the lovers. Ginger & Jagger motif is infusing a living space with the thrill of wanderlust, bringing you the pureness of Nature, the origins of the world, its wildness and the wilderness.

Nature has a way of inspiring creativity.

How far would you go for inspiration?

HANDCRAFT & MATERIALS

Brass Casting & Metalsmithing

The designers and artisans select raw materials from Nature, such as branches from rosebushes, vines, and fig trees, leaves and bark.

The brass casting process is made with sand, fire and brass. The melted brass fills the shapes and textures left on the sand by the branches and the leaves.

Made eternal, the natural elements are then crafted by hand, providing a new sense of purpose to them - function following form.

Wood Marquetry & Turning

The natural element in Ginger & Jagger's aesthetic canon is embodied by the use of raw materials such as solid wood or the finest wood veneers.

The wood carved from Nature provides function to the natural form, while the inlay marquetry evokes the first rays of sunshine passing through naked tree branches.

A balance between the integrity of the materials, the artisanal techniques employed and the brand's very own narrative element is the quintessence of Ginger & Jagger.

Stone Carving & Stonemasonry

*The design is the template,
but each piece is imprinted with its own story.*

*From inception to completion, each Ginger & Jagger creation is unmatched in craftsmanship,
and absolutely unrepeatable.*

*Made from handpicked blocks of marble,
the designs become unique hand-carved sculptures with a functional element.*

KEY WORDS

- New Material: Romano Travertine in natural finish
- Interior with gold leaf
- Minimalist design, inspired by the forces of nature, and brutalism

- The Canyon Side Table is a keepsake of the enigmatic forces of Nature. Canyons are formed either by the movement of water or wind, or by the stillness of weathering.
- This side table is carved from a stone block, and the boundaries are either angular or curved.
- The porous texture of the Travertine breathes on the surface of the top and sides. And in its core, the gold leaf is hand gilded in the stone.

SOLSTICE | MIRROR
NEW DESIGNS

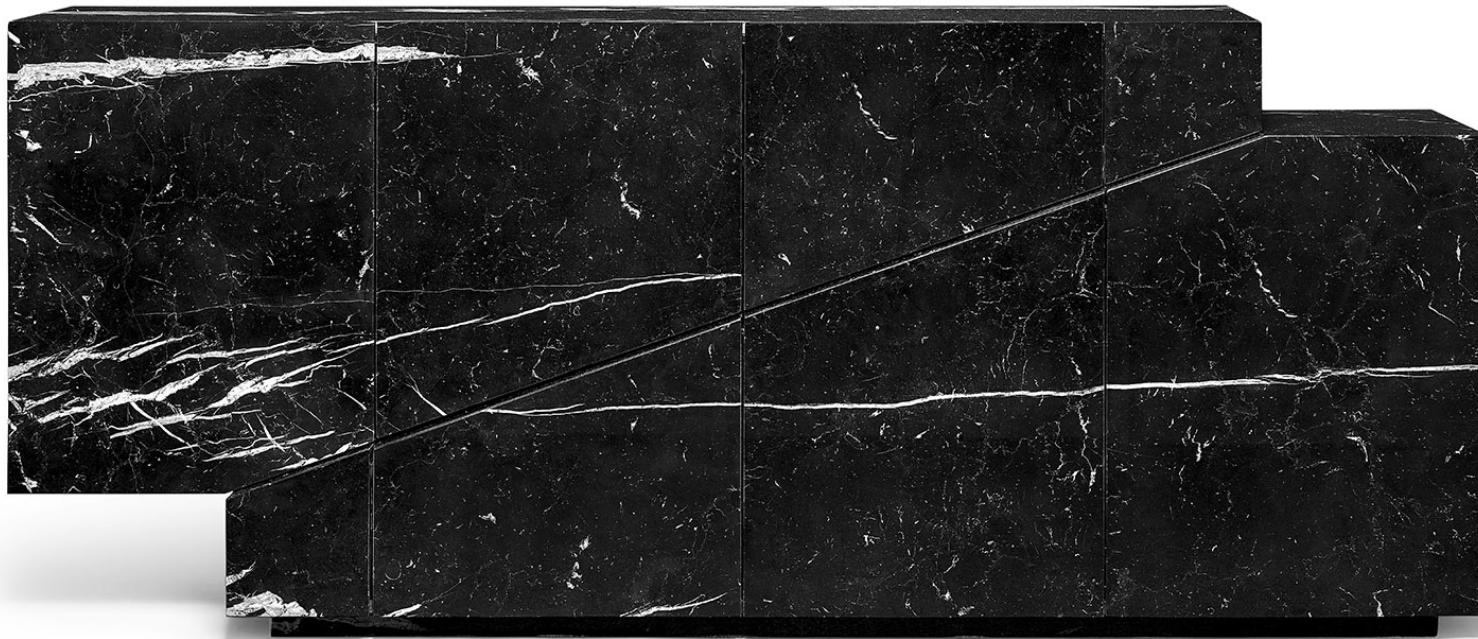

KEY WORDS

- New Material: Romano Travertine
- Blended with Brass
- The Solstice Mirror captures an ethereal moment of alignment, a fraction of time when the Sun shines the brightest, and the longest. The stone is like the Earth, in an instance of stillness, embraced by the mirror and the metal details, as the warm rays of light.
- Evocative, detached from unnecessary complexity, the Solstice is in essence a celebration all the everlasting elements that surround us – time, matter, light, and of one self, reflected.

The structure is molded in brass casting from magnolia tree branches, providing function to its natural form.

The softness of the marble and the ruggedness of the textured brass are a testament of Nature's paradox: complex, yet simple.

Encapsulating the commanding presence of Nature, made eternal by the craft, the materials and textures of these designs.

Rock Side Table, crafted from a single block of marble.

Ananaz Side Table, a subtle dance between light and shadow, opacity and transparency

The sculptural legs of this side table are made from immortalized rosebush branches, molded in brass casting. Coupled with a minimalistic and elegant marble top, the Blossom is a poetic handcrafted tribute to Nature's textures and patterns.

Mirrors

Ginger & Jagger's mirrors have a sculptural scale, elevating their presence in a living space, becoming the ultimate artisanal pieces.

Vine | Singular Mirror

Framing the beholder in a crown of vine branches, the Vine mirror is the ultimate artisanal piece. The four arches that form the frame are handmade from vine branches, molded in brass casting, found in the Douro Valley, home of the unique Port Wine.

Lighting

The intersections between light and shadow, stone and metal, are the quintessence of Ginger & Jagger's canon. Lighting sculptures with handcrafted metal and marble with a tactile element..

Pearl | Wall Lamp

The Pearl Wall Lamp is a poetic handcrafted tribute to Nature's mysterious ways. The piece, made in marble and metal, represents one of its quintessential attributes - serendipity. The magnificence of pearls, when produced naturally by oysters, is as breathtaking and it is exquisitely rare. The Pearl Wall Lamp's marble shape is carved by hand, making each piece, much like a natural pearl, an absolutely unique sculpture.
